#### **1. Background**

The Modernisation Fund was set up pursuant to Article 10d of Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a system for greenhouse gas emission allowance trading within the Union and amending Council Directive 96/61/EC (the “ETS Directive”).

The legal basis for the operation of the Modernisation Fund is set out in Commission Implementing Regulation (EU) 2020/1001 of 9 July 2020 laying down detailed rules for the application of Directive 2003/87/EC of the European Parliament and of the Council as regards the operation of the Modernisation Fund supporting investments to modernise the energy systems and to improve energy efficiency of certain Member States (the “Implementing Regulation”).

In accordance with Article 10d(6) of the ETS Directive, the European Investment Bank (the “EIB”) is to confirm whether a proposed investment falls into a priority area. The EIB may confirm the proposal as a priority investment if the conditions specified in Article 6(7) of the Implementing Regulation are met.

#### **2. Investment proposal**

Pursuant to Article 4(1) of the Implementing Regulation, on 09/09/2025 Romania (the “beneficiary Member State”) submitted to the EIB an investment proposal “Rehabilitation of the Sarichioi Irrigation System, Tulcea County” for which it envisages a contribution from the Modernisation Fund (Modernisation Fund reference number MF 2025-2 RO 0-009).

The investment proposal concerns a project for the period 2026-2029 relating to the modernisation of the pumping and repumping stations, SP1 and SRP1, which are part of the Sarichioi irrigation system in Tulcea County.

The main objective of the investment is to support the overall reduction of energy demand and improvement of energy efficiency in the agriculture sector by modernising the pumping and repumping stations as part of the rehabilitation of the Sarichioi irrigation system.

Improving energy efficiency and the decarbonisation of the agriculture sector are included in the objectives and measures of the Long-term Strategy and National Energy and Climate Plan (NECP) for Romania.
