MODERNISATION FUND

Accelerating the transition to climate neutrality

MODERNISATION FUND **EIB CONFIRMATION OF PRIORITY INVESTMENT**

ref. MF 2026-1 CZ 0-004

Beneficiary Member State: Czech Republic
Investment Proposal: EGT-Heat Pump, Stage 2

1. Background

The Modernisation Fund was set up pursuant to Article 10d of Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a system for greenhouse gas emission allowance trading within the Union and amending Council Directive 96/61/EC (the “ETS Directive”).

The legal basis for the operation of the Modernisation Fund is set out in Commission Implementing Regulation (EU) 2020/1001 of 9 July 2020 laying down detailed rules for the application of Directive 2003/87/EC of the European Parliament and of the Council as regards the operation of the Modernisation Fund supporting investments to modernise the energy systems and to improve energy efficiency of certain Member States (the “Implementing Regulation”).

In accordance with Article 10d(6) of the ETS Directive, the European Investment Bank (the “EIB”) is to confirm whether a proposed investment falls into a priority area. The EIB may confirm the proposal as a priority investment if the conditions specified in Article 6(7) of the Implementing Regulation are met.

2. Investment proposal

Pursuant to Article 4(1) of the Implementing Regulation, on 12/02/2026 Czech Republic (the “beneficiary Member State”) submitted to the EIB an investment proposal “EGT-Heat Pump, Stage 2” for which it envisages a contribution from the Modernisation Fund (Modernisation Fund reference number MF 2026-1 CZ 0-004).

The investment proposal concerns a project for the period 2028-2030 relating to partial replacement of the outdated coal fired Mělník’s Power Plant (EME1) capacity by a modern heat pump installation (HP2).

As a result, an industrial heat pump (or a cascade of multiple heat pumps) with a total thermal output of approximately 5 MWt supplying the heat to the district heating system will be constructed.

The beneficiary Member State has requested funding of EUR 4 623 655.91 under the proposed project.

The main objective of the investment is partial replacement of heat generated at the lignite-fuelled EME1 plant with heat generated by a heat pump, in order to modernise heating asset, increase energy efficiency, and the amount of renewable heat supplied to Melnik's district heating network, while reducing CO₂ emissions.

The project is aligned with the objectives and measures of the National Energy and Climate Plan (NECP) for Czech Republic aiming at increasing the share of renewable heat in district heating networks and increasing energy efficiency in heating and cooling sectors.

3. Compliance with the conditions for a priority investment

- a) The beneficiary Member State has demonstrated that the investment complies with the requirements laid down in Article 10d(1) of the ETS Directive as it supports the modernisation of the energy system and energy efficiency and it is in line with the objectives and measures set out in its NECP.
- b) According to the information provided by the beneficiary Member State and pursuant to Article 10d(2) Directive 2003/87/EC, the investment is considered as a priority investment as it falls under the priority area b) heating and cooling from renewable sources.
- c) The beneficiary Member State has sufficient funds available from the auctioning of allowances covered by a notification pursuant to Article 10d(4) of Directive 2003/87/EC for the requested disbursement, according to the statement of the available funds referred to in Article 5(1) of the Implementing Regulation, and after deduction of any amounts to be disbursed for investments already confirmed in accordance with Article 6(9) of the Implementing Regulation.
- d) The beneficiary Member State has provided evidence that the measures under the investment proposal:
 - are exempted from the State aid notification in accordance with applicable State aid rules.
- e) The beneficiary Member State has confirmed in writing that the investment complies with any other applicable requirements of Union and national law.
- f) According to the information provided by the beneficiary Member State, the amounts requested from the Modernisation Fund are not intended to cover the same costs of the investment as those financed by another Union or national instrument.

4. Conclusions

The EIB has assessed the investment proposal based on the information submitted by the beneficiary Member State in accordance with Article 4 and Annex 1 of the Implementing Regulation and it has concluded that the investment proposal has met the conditions specified in Article 6(7) of the Implementing Regulation.

In view of the above, and in reliance on the information and evidence provided and the confirmations given by the beneficiary Member State as described in paragraph 3 above, the EIB confirms the proposal “EGT-Heat Pump, Stage 2” (Modernisation Fund reference number MF 2026-1 CZ 0-004) as a priority investment.

This confirmation, being based in part upon an exemption from State aid notification that is limited in time, is made on the assumption that the investment proposal, if it constitutes State aid after the expiry of such time limit, will continue to be exempted from State aid notification or that the beneficiary Member State will either obtain State aid clearance or cease to finance the investment proposal with Modernisation Fund funds at that time.

This confirmation is without prejudice to the requirement for a disbursement decision to be made pursuant to Article 10d(3) of the ETS Directive.
