In accordance with Article 10d(6) of the ETS Directive, the European Investment Bank (the “EIB”) is to confirm whether a proposed investment falls into a priority area. The main objective of the investment is to renovate and modernise municipal public buildings in Lithuania to significantly improve their energy efficiency, reduce primary energy consumption and associated greenhouse gas (GHG) emissions, and ensure cost-effective delivery of climate and energy objectives in the public sector buildings.

The scheme is aligned with the objectives of the National Energy and Climate Plan (NECP) for Lithuania and the National Long-Term Strategy (LTS), which prioritise renovation of public buildings and reduction of energy demand in the building sector as essential measures to achieve national energy efficiency and GHG reduction targets.
